

## Kemet P320 Automatic Polishing Machine with Central Pressure Head

The Kemet P320 Automatic Polishing machine is a 6 station pressure polishing machine with variable speed and pressure controls. It is suitable for 300mm Diameter plates and can polish up to 6 samples Ø 50mm.

### Base Unit Features

- Single Lift off plate, 300mm Diameter
- Robust construction, steel frame, composite body
- Variable speed: 50 to 500 rpm
- Two speed pre select: 150 / 300 rpm
- Rotation clockwise or counter clockwise
- Water flow is controlled by electromagnetic valve
- Drying function
- Emergency stop button
- Base platen accepts a choice of plates
- Build in accordance with EEC standards
- Power: 900W
- Voltage: 230, single phase

### Automatic Polishing Head Features

- Central pressure - 6 samples Ø 25 to 32mm or 4 samples Ø 32 to 40mm
- Touch sensitive control with electronic display of pressure from 0.5 to 30 daN
- Time: 10 seconds to 99 minutes
- LED display timer: 10 seconds to 99 minutes
- Rotation speed: 20-100 rpm
- Diluent tank: 150ml
