

The Kemet T350M cut-off machine

Width: 780mm
Depth: 1016mm
Height: 1700mm
Weight: 325 Kg

The Kemet T350M cut-off machine is a floor standing cut off machine with integral base cabinet that support the spray collection pan, work table and cutting wheel assembly on top. The manual cutting movement is highly sensitive. The design of the machine with an isolated working area allows for easier cleaning.

The wide table with "T" slot grooves allows the use of special fixtures for large samples, or to use quick clamping vices.

Supplied with tank (80 Litres) and pump, 5 cut off wheels Ø250mm and anti-rust liquid (2 Litres)

Specification

- Floor standing machine
- Cut-off wheel diameter 355 mm
- Manual cutting movement
- Motor 4 Kw
- Wheel rotation speed 2200 rpm
